## GOV. GILCHRIST SPEAKS AT TAMMANY HALL

One of Principal Orators at  
Fourth of July Cele-  
bration.

### HIGH TRIBUTE TO THE ORGANIZATION

FLORIDA'S CHIEF EXECUTIVE  
AFTER COMPLETING TAM-  
MANY ON ITS ACCOMPLISH-  
MENTS TAKES UP NATIONAL  
ISSUES AND ASSAILS THE RE-  
PUBLICAN PARTY FOR ITS  
FAILURE TO KEEP FAITH WITH  
THE PEOPLE ON THE TARIFF  
QUESTION.

By Associated Press.  
New York, July 5.—Governor Albert W. Gilchrist, of Florida, was one of the speakers at the Fourth of July celebration of Tammany Hall today. After paying high tribute to the organization, its accomplishments and services, Governor Gilchrist turned to national issues, declaring that "great as the possibilities are for the future growth and development of this country, yet its greatness would be but as a 'whitened sepulcher, beautiful without, but within full of dead men's bones,' if the policy of the present ruling power in this nation is to continue."

Governor Gilchrist referred to the tariff question, and pointed out what he declared to be fallacies and absurdities of the republican platform promises and assertions, expressing wonder that the republicans had not claimed credit for all the natural advantages of the country. He asserted that every financial panic or crisis which the country has suffered has started while the republicans were in power.

**THE HIGH TARIFF.**  
When the high protective tariff was first established it was, he said, for the benefit of infant industries. "After forty-eight years, and after they have become able to compete successfully with the world, do you still consider them infants?" he asked. "Then they said that the foreigner paid the tariff. Do you suppose that the American Newspaper Publishers' Association believes that, when they unanimously resolved, that it is the sense of this meeting that the duty on printing paper, wood pulp and other material entering into the manufacture of printing paper be immediately repealed?" The democratic party, very properly, styled this \$6 per ton not a tax upon the foreigner, but a tax upon the spread of knowledge. "Thanks to the protest of the press and the democratic party, it is now proposed to revise downward this particular tax."

"Then the republicans claimed that owing to the increased protection in our country, that thereby competition would reduce the prices at home. With the establishment of the tariff, and the trusts and consolidations, does any one now believe that statement?"

## More Sugar Officials Will Be Indicted

By Associated Press.  
New York, July 5.—More indictments in connection with the sugar trust's alleged conspiracy in restraint of trade in closing up the new refinery of the Pennsylvania Sugar Refining company will probably be forthcoming before long. Rumors to that effect were prevalent today in the federal building.

One or two witnesses may be examined by the grand jury and one of the phases of the case to be come into the settlement by the trust of independent concern's suit against it for \$30,000,000. The details of this settlement have not been made public.

## Boat Capsizes and Four Men Drown

By Associated Press.  
Hickman, Ky., July 5.—In a terrific storm here this afternoon four men were drowned by the waves and wind capsizing their skiff in the Mississippi river.

J. E. White, with seven other men, started to the steamer Liberty, to put a man aboard, and after putting him aboard brought back two negroes from the steamer, making nine in the boat.

They say they were caught in the storm, and threw their cargo of corn, coal oil, and groceries into the river, but the high waves and wind capsized their boat. The waves rolled high and fast, turning their skiff over and over, the men losing their hold, grasping each other and every stick and oar, and in desperation clinging to everything.

## Actress Has Close Call While Driving

By Associated Press.  
Memphis, July 5.—Unable to check the breakneck speed of the horse behind which she was driving, Miss Chattie Wright, a member of the Bijou Musical Comedy company, guided the maddened animal through crowded Main street yesterday afternoon for four blocks, during which time she skillfully kept the horse and buggy away from pedestrians, street cars and vehicles until Monroe street was reached, when with a crash the horse collided with a runaway driven by George Hartell.

Miss Wright leaped in time to prevent being pinned under the wreck, and fell heavily on the street car track, bruising her face, hands and knees. The young lady was carried to the offices of Dr. B. G. Henning, where she was given medical attention, and afterward moved to the

Fransholt hotel, where she is stopping. Miss Wright was sitting in the buggy in front of the Gayoso, when a pory cart, striking the rear wheel, frightened the horse to such an extent that he started up the street with such a speed as to nearly throw the young woman from the seat. Although taken by surprise, she quickly recovered her equilibrium, and exerted her strength in keeping out of the way of cars and carriages.

Several daring attempts were made by pedestrians to catch the horse, but were either quickly abandoned or found the would-be rescuer rubbing the dust from his clothes.

Both buggies were damaged by the collision. Miss Wright will in all probability be seen in her role at the Bijou within the next few days, although it will seem rather tame compared to that thrilling part she played yesterday.

## TO RECOMMEND HOME BURNED, REDUCTION OF TOBACCO TAX FIVE PERSONS MEET DEATH

CIGAR MANUFACTURERS APPEAR  
BEFORE SUB-FINANCE COM-  
MITTEE AND SUCCEED IN DE-  
FEATING PROPOSED INCREASE.

By Associated Press.  
Washington, July 5.—The cigar manufacturers had a hearing today before the sub-committee on finance, and succeeded in defeating the proposed increase from three dollars to three dollars and sixty cents per thousand in the internal revenue tax on cigars. The sub-committee tomorrow will recommend the following rates to the full committee: Snuff, eight cents per pound; chewing and smoking tobacco, eight cents per pound; cigars, weighing more than three pounds per thousand, three dollars; weighing less, one dollar; cigarettes, flat rate of one dollar and fifty cents per thousand, and also an anti-coup provision.

**AT SHEEPSHEAD BAY.**  
Sheepshead Bay, July 5.—King's daughter, the speed marvel of the west, easily won the Commonwealth handicap today before fifteen thousand spectators. The odds were eight to five.

**DIES OF LOCKJAW.**  
Battle Creek, Mich., July 5.—Ky-nutte Cole, 10 year old, died last night of lockjaw resulting from a toy pistol wound inflicted last Sunday.

AGED CONFEDERATE SOLDIER  
AND FOUR CHILDREN BURNED.  
ANOTHER CHILD THROWN OUT  
OF WINDOW IS DYING.

By Associated Press.  
Richmond, Va., July 5.—H. A. Strange, a 74-year-old Confederate veteran and five children of S. E. Hamlett, were burned to death today in the home of Hamlett.

Another child was thrown from a window so badly burned it will die. Hamlett, his wife and two other children escaped.

**AERONAUT KILLED.**  
Portland, Me., July 5.—James Corcoran, an aeronaut, was killed by falling two hundred feet from a parachute today.

## SCENES AND CENTRAL FIGURES IN STRIKE THAT TIED UP PITTSBURG STREET RAILWAYS

## JULY FOURTH THE BUSIEST DAY OF THE SENATE SESSION

Only Tobacco Tax Remains  
of Tariff Bill to be  
Considered.

### CUSTOMS COURT IS PROVIDED FOR

WILL BE COMPOSED OF FIVE  
MEMBERS AND TO SUPERSEDE  
THE UNITED STATES CIRCUIT  
COURT IN CUSTOMS MATTERS.  
INCOME TAX PASSES UNANI-  
MOUSLY AND IS TO BE SUBMIT-  
TED TO THE LEGISLATURES OF  
VARIOUS STATES.

By Associated Press.  
Washington, July 5.—The Fourth was the senate's busy day, and it accomplished more than on any single day heretofore. Very little is left to do, the principal item being the consideration of the tobacco tax. The senate today adopted the customs court feature of the administrative bill, providing a court of five members to supersede the United States circuit court in customs matters, and reduced the salaries of the court members from ten to seven thousand dollars each. Before the court was agreed to Rayner forced Aldrich to agree to except criminal prosecution from the operations of the customs court.

All the administrative features of the bill were disposed of. Brown's income tax resolution was adopted unanimously. It provides that "congress shall have power to lay and collect taxes on incomes from whatever source derived without apportionment among the several states and without regard to any census or enumeration." It is a constitutional amendment and will be submitted to the state legislatures. An amendment to the tariff bill was accepted providing that nothing in the measure shall interfere with the Cuban commercial treaty.

An amendment of Overman was adopted allowing a drawback on cotton ties when used on cotton which is exported. Culberson asserted that the Standard Oil company will continue to receive one million dollars yearly as drawbacks on cans it exports and announced he will offer a

## RECORD BREAKING CROWD VISITS PALMETTO BEACH FOR THE FOURTH OF JULY

The Day More Generally  
Observed Here Than  
Ever Before Known.

### ALL PLACES OF BUSINESS CLOSED

PENSACOLA ELECTRIC COMPANY,  
WHICH FURNISHED EXCELLENT  
SERVICE TO AND FROM PAL-  
METTO BEACH, HANDLED AL-  
MOST 3,000 PERSONS DURING  
THE DAY ON THAT LINE ALONE

Pensacola and Pensacolans turned themselves loose in this year's celebration of Independence day, a general holiday having been decided upon as if by mutual consent. The crowning feature of the many celebrations, however, and the one in which record breaking crowds took part, was the picnic given by the Knights of Columbus at Palmetto Beach. In the early part of the afternoon crowds of people began to move to that most delightful of pleasure resorts, and by 3 o'clock the transportation people estimated that fully 2,500 to 3,000 persons had been handled. A fine service was rendered, a 45-minute schedule having been maintained throughout the afternoon hours from each end of the electric line. It was easily the largest and best-behaved crowd that has yet patronized like outings on the electric line.

The Knights of Columbus had a competent committee in charge of every detail of the day's doings. Under the different committees things went merrily. Ticket salesmen were ready to serve patrons in the city and on trains. This was one of the delightful evidences of forethought on the part of somebody, for it dispensed to a great degree with the crush of getting tickets at the gate. Patrons were admitted hastily, safely and without any trouble.

**THE BASEBALL GAME.**  
The leading feature of the day's events was the game of baseball for a rat purse played by picked teams from Pensacola and Fort Barrancas. The score was 12 to 3 in favor of the city team. It is certain that this game was witnessed by the largest crowd of any played at Palmetto Beach in many a season.

A list of sports of other kinds was also pulled off, to the delight and amusement of hundreds of people.

While the Knights were directly and chiefly in charge of every detail, the young men constituting the Palmetto Beach amusement association provided and supervised practically everything, and it was to the credit of these young men that things went along so smoothly and nicely. Concessions and amusements were given and selected with care, and pleased even the most exacting. The moving

## KETCHELL PUTS PAPKE OUT IN 20TH ROUND

BLOODY FIGHT AT FRISCO FOR  
THE MIDDLEWEIGHT CHAM-  
PIONSHIP—KETCHELL FOUGHT  
14 ROUNDS WITH A BROKEN  
HAND.

By Associated Press.  
San Francisco, July 5.—Stanley Ketchell defeated Billy Papke for the middleweight championship in the twentieth round. When Ketchell was awarded the decision it was greeted with mingled cheers and hisses.

The fight was a desperate and gruelling one. In the sixth round Ketchell had his hand broken, but he went gamely ahead and was constantly the aggressor.

**REVOLUTION BREAKS OUT.**

Guayaquil, Ecuador, July 5.—A private cable states that a revolution has broken out at Barranquilla, the most important commercial city of Colombia, against Acting President Holguin, who is governing during the absence of Reyes in Europe.

**MEN BLOWN TO ATOMS.**

Toplitz, Utah, July 3.—Three men were blown to bits this afternoon when 750 kegs of powder exploded. Six others were seriously injured.

## Laborer Confesses and Saves Another

By Associated Press.  
San Francisco, July 5.—James Edward Cunningham, a laborer, has confessed to the murder of Miss Caroline Brasch, cashier for Gray Bros. Construction company, who was slain in the company's offices last Wednesday. Cunningham entered a newspaper office last night and made his original statement, which later was repeated to the police. The detective department was not notified until early today, when representatives of the newspaper delivered the man into custody, together with a revolver, with which the crime is said to have been committed. The original theory as to the motive for the murder is borne out by the confession of Cunningham, but the police, in the arrest of J. Novak, another laborer employed by Gray Brothers, were endeavoring to fasten the crime on an innocent man, who happened to be the victim of circumstances almost unparalleled.

Cunningham according to his statement, entered the offices of the Gray company just as Novak departed. Novak had disputed with Miss Brasch a trifling difference in his pay check and failing to get satisfaction, departed in anger. Stepping before the cashier's window immediately afterwards, Cunningham declares he renewed a wrangle of several weeks' standing over his check and finally shot the girl.

## Independent Oil Men Will Continue Fight

By Associated Press.  
Washington, July 5.—The placing of petroleum on the free list by a substantial majority of the senate apparently has not taken all of the fight out of the independent oil producers, and another effort in the direction of protection of this industry will be made when the tariff bill shall have been perfected in committee. The whole and reported to the senate. At a conference of the independent oil producers, who have been in Washington practically all of the present session of congress, it was decided today to make another effort to amend the bill so as to provide for a countervailing law. However, the proposed amendment will prescribe that the duty be collected shall be only one-half of the duty imposed by any foreign country upon oil exported from the United States.

Senator Curtis has been selected to introduce the new amendment, which differs from the existing countervailing provision in that it relates only to the crude petroleum, instead of crude and refined petroleum and the products thereof, and that one-half of the duty imposed by a foreign country is levied instead of the full rates, Mexico, which will be affected more than any other country if the countervailing duty is maintained, imposes a duty of nearly 49 cents a barrel on the crude product. This is estimated to be equivalent to an ad valorem rate of between 300 and 400 per cent, and the independents assert that this duty is prohibitive.

When this amendment is offered in the senate an effort will be made to get a roll call upon it. Already several of the members who voted against the Penrose amendment placing a duty on crude petroleum have signified their intention of voting for the countervailing duty.
